

Product Specification

Product information	Parameters			
Product name: Electric Scooter Type:Outdoor Model:STC-D01 Maximum userweight:120KG Motor power:250W 	Impressive Travel Distance	Cover 12~40km on a single charge,giving you the freedom to go further without worrying about recharging often.	Motor	250W
	Strong and Sturdy	With a maximum load capacity of 125kg,this scooter is designed for strength and reliability,making it ideal for all users.		
	Good Speed	This speed of the can be adjust from 0~8km	Controller	Driving Wheel
	Overall height	940mm	Battery	24V-12Ah/20Ah lead-acid
	overall demension	1080mm × 480mm × 940mm		
	Grossweight	45KG		
	Net Weight	/		
	Seat width	/		
	Seat depth	/		
	Frontseat height	/		
	Backrest angle	/	Charger	Match to the battery
	Backrestheight	/	Theoretical diving distance	12km
	Head cushion above backrest distance	/	Maximum speed	8km/h
	Head cushion height	/	Horizontal road braking	/
	Distance from footrest to seat	/	Maximum safe slope braking	/
	Footrest height off the ground	/	Static stability	/
	Angle of foot rest to seat surface	/	Dynamic stability	/
	Armrest height	/	Slope standing performance	/
	Distance from front to back of armrest	/	Obstacle climbing	/
	Distancebetween armrests	/	Ground clearance	7.5cm
	Rearwheelspecification	8-inch solid front and rear	Climbing angle	12 °
	Handrail diameter	/	Minimum turning radium	/
	Front wheel specification	8-inch solid front and rear	Additional	360 ° rotating adjustable seat, USB charging port,LED headlight
