

Product Specification

Product information	Parameters			
Product name:Electric Wheelchair Type:Outdoor Model:X30 Maximum user weight:100KG 	Effortless Folding	Effortlessly fold sat the push of a button,offering compact portability and convenience for easy storage and transport.Ideal for both indoor and outdoor use."	Motor	Standard and Premium versions
	Adjustable seat	The seat chair can be rotated 360 degrees,the seat height can be adjusted,the armrest width can be adjusted.		
	Remote control	The X30 stands out with its advanced remote control feature,allowing users to operate the scooter effortlessly with a controller.This adds convenience and flexibility,making it perfect for modern,tech-savvy users	Controller	with remote control and the original on the armrest
	Overall height	930mm	Battery	15Ah(Basic)
	Folded size	830mm × 590mm × 370		
	Packing size	650*440*840mm		
	Gross weight	/		
	Net Weight	30kg		
	Seat width	42cm		
	Seat depth	42cm		
	Front seat height	57.5cm	Charger	Match to the battery
	Backrest angle	/	Theoretical diving distance	15km
	Backrest height	/	Maximum speed	6km/h
	Head cushion above backrest distance	/	Horizontal road braking	/
	Head cushion height	/	Maximum safe slope braking	≤3.6m(6 °)
	Distance from footrest to seat	/	Static stability	/
	Footrest height off the ground	/	Dynamic stability	/
	Angle of footrest to seat surface	/	Slope standing performance	/
	Armrest height	/	Obstacle climbing	6 °
	Distance from front to back of armrest	/	Ground clearance	7cm
	Distance between armrests	/	Climbing angle	≥6 °
	Rear wheel specification	10-inch pneumatic	Minimum turning radius	76cm
	Handrail diameter	/	Additional	SOS Alert/LED waterproof tail light/Ergonomic seat design

	Front wheel specification	10-inch magnesium alloy	/	/
